

## **Fractions Closed Trail Activity**

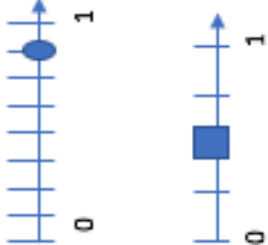

Group by 4 students and organize the 24 cards into a closed trail from start to finish. The teacher should make sure that the cards are completely shuffled prior to distribution.

If the task is too hard, do one page at a time. But it's not too much fun with only 12 cards.

$\frac{10}{10}$ 	$\frac{1}{5}$ <p>Six-eighths</p>
---	----------------------------------

$\frac{5}{8} + \frac{1}{8}$ <p>One-tenth</p>	 <p>Seven-eighths</p>
--	--

	$\frac{1}{2}$ 
--	--

$0 + \frac{2}{5}$ 	$\frac{1}{8}$ <p>ONE</p>
---	--------------------------

$\frac{5}{10} + \frac{5}{10}$ $\frac{3}{10} + \frac{4}{10}$	<p>Seven-tenths</p> 
---	---

<p>Three-fifths</p> 	<p>One-sixth</p> <p>END</p>
---	-----------------------------
